

Northern Nigeria Bitcoin Seminar and Lightning Development Bootcamp

Sponsorship Deck

Bringing Freedom to Africa

Our Mission & Vision

Our Mission

Build a trusted, sustainable community that makes Bitcoin more accessible to the people of Africa.

Our Vision

To bring financial freedom to Africa through Bitcoin. We believe in a future where Bitcoin unlocks Africa's potential by combating financial inequality and empowering communities with accessible, decentralized solutions. With 18 months of impactful work behind us, we are ready to scale—with your partnership.

Introduction

The Kaduna Lightning Bootcamp & Bitcoin Seminar is a groundbreaking initiative aimed at equipping university students, developers, and tech enthusiasts with Bitcoin and Lightning Network knowledge and skills. This five-day event will serve as a catalyst for driving Bitcoin adoption and fostering innovation in Nigeria's tech ecosystem.

Bitcoin adoption in Nigeria is growing rapidly, and this event provides an opportunity to educate, engage, and empower participants with the right tools and knowledge to contribute to the Bitcoin ecosystem.

By sponsoring this event, your company will play a vital role in shaping the next generation of African Bitcoin developers and advocates while gaining unparalleled exposure in one of Africa's most dynamic Bitcoin markets.

Event Breakdown

The Kaduna Lightning Bootcamp & Bitcoin Seminar is structured into two main phases

1. University Bitcoin Outreach Day

A full-day program engaging university students with Bitcoin fundamentals, real-world applications, and financial empowerment opportunities. The goal is to introduce Bitcoin as a tool for financial sovereignty and innovation while fostering an active learning environment.

2. Four-Day Lightning Development Bootcamp

A full-day program engaging university students with Bitcoin fundamentals, real-world applications, and financial empowerment opportunities. The goal is to introduce Bitcoin as a tool for financial sovereignty and innovation while fostering an active learning environment.

- A solid foundation in Bitcoin and Lightning Network principles
- Training on how to build Bitcoin-enabled applications
- Live coding sessions and mentorship from industry experts
- Networking opportunities with experienced Bitcoin developers
